## SUMMARY

---

Flutter developer with 2+ years of experience building mobile apps for Android and iOS. Skilled in Dart, BLoC, Provider, Firebase, Supabase, and REST APIs. Built 5+ apps in healthcare, logistics, and productivity. Focused on clean code, simple design, and on-time delivery.

## WORK EXPERIENCE

---

**Flutter Developer** | [Peshawar, EncoderBytes](#) | *June 2024 – Present*

- Implemented MVVM clean architecture with Provider state management
- Integrated Firebase Authentication, *Firestore* and push notifications
- Connected apps with REST APIs and handled data properly
- Developed AI-powered symptom-to-doctor matching feature using third-party ML REST API

**Flutter Developer** | [Uzair Tech, Kohat](#) | *July 2023 – May 2024*

- Developed cross-platform mobile applications from scratch using Flutter and Dart
- Built Firebase Authentication flows: email/password, Google Sign-In, and role-based access
- Mapped REST API JSON responses to Dart models using null safety and serialization

## TECHNICAL SKILLS

---

**Languages:** Dart

**Frameworks:** Flutter

**State Management:** Provider & Riverpod

**Backend & APIs:** Firebase, Supabase, REST APIs

**Databases:** Firestore, MySQL, SQLite, Hive

**Testing:** Unit, Widget, Integration Testing

**Tools:** Git, GitHub, Android Studio, VS Code

**Integrations:** Google Maps SDK, Firebase Cloud Messaging

## PROJECTS

---

### Smart Symptom-to-Doctor Finder — AI Healthcare App

- Flutter + Firebase app that analyzes user symptoms and recommends matching doctors via AI API
- Role-based dashboards for patients and doctors with secure Firebase Authentication
- Integrated AI recommendation engine via REST API for intelligent real-time doctor matching

### Delivery Tracking App

- Real-time order tracking with Google Maps SDK and live Firebase location updates

## Medicine Reminder App

- Scheduled local push notifications using flutter\_local\_notifications package
- Cloud sync via Firestore ensuring reminders persist across device reinstalls
- Offline support with local SQLite/Hive cache for low-connectivity environments

## Student Project Management Portal (Final Year Project)

- Web-based portal for 200+ students to submit, track, and manage final year projects
- Admin panel for supervisors to assign projects, set deadlines, and monitor submissions

## UI/UX DESIGN (FIGMA)

---

Designing user-centric mobile app interfaces with a focus on usability, consistency, and modern UI trends.

**GYM APP UI DESIGN:** <https://www.figma.com/proto/86KY06PjikiNPF2vZzi77/Untitled?node-id=0-1&t=LXx1VniwoN9dx9Bo-1>

**Education App:** <https://www.figma.com/design/CIY9IFRnDRNwDoMuSGI5xV/Education-App?node-id=0-1&t=vIoTrgRzJHsshGAS-1>

## EDUCATION

---

### Bachelor of Science in Computer Science — 2020 – 2024

Kohat University of Science & Technology (KUST) — CGPA: 3.60 / 4.00

- Merit Scholarship awarded for 6th, 7th, and 8th semesters based on academic performance
- Final year project: web portal serving 200+ users — graded distinction

## TRAINING & CERTIFICATIONS

---

**Flutter Internship** — Sukkur Bootcamp

**Flutter Development Training** — HERA-KDDP

**Mobile Application Development** — Coursera

**Flutter & Web Development** — WsCube Tech
